Some pictures of slopes after hurricanes, before  
PRATI ARMATI® intervention

# GULF of MEXICO 2016

## We STOP erosion despite HURRICANES

- We show the results on slopes where the installed PRATI ARMATI<sup>®</sup> green mantle is fully operating and protects the surfaces from erosion caused by heavy rain and hurricanes.
- The pictures show the interested areas before and after treatment that, depending on weather conditions and soil characteristics, may take only few months to become effective.
